[Vision and strategy](#) [2]

Our vision

We train engineers at the forefront of new technologies in order to sustainably support the development of the Kingdom, whether for the trades of today or tomorrow.

Our mission

Further strengthen our position as an undisputed benchmark of expertise and excellence in telecommunications and information technology.

Our pedagogical expertise allows us to train engineers with high potential, solicited on the job market and whose skills are in perfect match with the evolving needs of the professional world.

Our strategy

In order to carry out our mission, we place multidisciplinary, openness and creativity at the heart of our strategy and we resolutely commit ourselves to a development approach based on:

- The reorientation of the training curriculum and the accreditation of new courses,
- The involvement of partner companies in educational programs,
- Commitment to the quality approach and mastery of teaching processes,
- The constant updating, expansion and diversification of the training offer,
- Promotion of research and development
- The continuous development of pedagogical expertise.
